Synopsis:

These hyperdocs will be found in the students' GoogleClassroom

The students will complete individual hyperdocs that I create on how environmental and genetic factors influence the growth of organisms. This hyperdoc will include games, articles, questions, pictures, and videos about the subject. Students will use the information from the hyperdoc to construct a scientific explanation of how environmental and genetic factors influence the growth of organisms. This will be asked for in a section of the hyperdoc that contains the instructions for the assignment. Students are to complete the explanation in GoogleDoc and insert a link of the document into the hyperdoc. The completed hyperdoc can be turned into GoogleClassroom.
