

Ms. Nash's Weekly NEWSLETTER

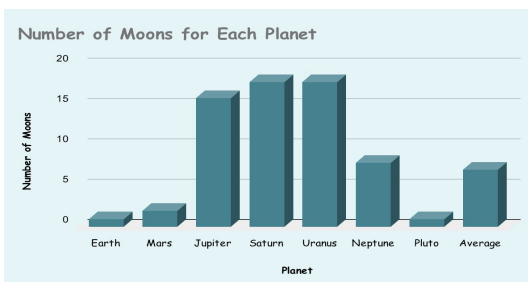

DECEMBER 9-13, 2019 / Week 17

Happy Holidays from Planet Earth!

We are having a **BLAST** learning about our planets!

Students have been working extra hard this past week learning about the planets in our solar system. Students were grouped into groups of 2 or 3, and each group was assigned a planet to explore and learn facts about. Once each group had sufficient data, then as a class, we filled in a graph comparing all of the planets. They did an excellent job working together and learning how each planet contributes to our solar system.

For the next part of the project, students will be making a presentation about their planet and presenting it to an audience when they are finished. All supplies needed for this project will be provided, but if students have something at home that they would like to use, they are more than welcome to bring it to class. Family and friends are invited to come and watch their presentations on Friday, December 13th at 1:30 pm in the cafeteria. We hope to see you there!

Reminder

Please remind students that cell phones are not allowed in class. It has been an issue lately, and we

had to review our classroom rules. Punishment will be more strict if students continue to bring them in.

Thank you!
