

Mini Lesson 3 (Narrative Story)

- Grade level/ Audience: 1st Grade Students
- Curriculum: English Language Arts
- Tools: Inspirations and Prezi
- Synopsis: Students will be instructed to get into pairs and to create a short narrative story.

Students will use inspiration as a way of mapping out/brainstorming/pre-writing their story. The pairs will use Prezi to create their story. Students can add images to their Prezi/story if they desire but it is not required. There must be words on every slide.

Students will work together to pre-write the story with the students taking turns creating the Inspirations. Students must have a beginning, middle, and end on the pre-writing Inspirations. Students will work together to create the Prezi/story at the same time by sharing with both members of the group. They will then present their Prezi/story to the class.
