

## How to Make a Book

Step 1: Gather all of the necessary materials (construction paper, stapler, staples, and markers or crayons).

Step 2: Allow students to pick out the color or colors of the pages of their book.

Step 3: Have the students stack all of the pieces of paper together and fold them hamburger style.

You may need to assist some students with this step.

Step 4: Go around and staple each of the student's books (2 staples, one on the top and one near the bottom).

Step 5: Have the students write their name and the title of the book on the front cover/page.

Step 6: Have the students draw a narrative story in the book.
