Cost:
Free to download; Some games free; $5/month or $30/year for all

Software Evaluation:
This is a loud and interactive game. When you open the app, you're able to choose which content area you'd like to practice. Each activity is packed with graphics. You can unlock new backgrounds, stickers, fish, stars and games. The student has a stickers section, stars section, backgrounds section and even a fish tank as rewards. The grownups have a section where they can review progress and even develop lesson plans.

This is a fun app with insane graphics and upbeat music. All grade levels have their own individual app with grade appropriate graphics and activities. They connect to standards. However, once you get so far, you have to purchase further lessons.

Does the software pass Review? Yes

Does the software pass Evaluation? Yes
