

Grade Level/Audience: Kindergarten

Curriculum Topic: Math

Tools: Kahoot

Synopsis: During this class period, the students will be working on their mathematics skills. The students will use their iPads to answer the questions on Kahoot. The teacher will be sharing her screen on to the smartboard for the students to see the questions. The students can have scratch paper on their desk to work out the problems they need. Then, they will answer the questions and it will allow them to see if they got the answer wrong or right.
