

PowerPoint

- 1) 1st grade/ students and teachers
- 2) Behavior of parents and offspring that help offspring survive
- 3) PowerPoint and Kahoot
- 4) Students will make a PowerPoint with different slides, each slide will have a picture of a mother and its baby. The slides will include facts about behaviors such as crying, feeding, comforting, time together, protections, and providing. We will be discussing different mammals, reptiles, amphibians, and birds in class. After the PowerPoint and class discussions are complete, student will participate in a Kahoot in class made by the teacher.
