

1. Grade/ audience: 1st/ students
2. Curriculum: Technology
3. imovie and photobooth

We will have an outdoor class session dedicated to students taking pictures of nature and classmates outside. Student will take their picture using photobooth to add any filters they want, then they will use those picture as media for an imovie. They will spend time adding effects and music. This project will prepare them to use imovie for a bigger project.
