

Acceptable Use Policy

Explanation

Dear Grown Up(s),

Attached is our Classroom Acceptable Use Policy (AUP). These are rules and guidelines as well as consequences for our classroom that we will follow throughout our school year. The reason for a Classroom AUP is, first and foremost, to provide safety to all involved. This is also to promote optimal learning, structure, classroom organization and time management. This policy assists in our class having a productive and successful year!

I have also attached a template for a Home Acceptable Use Policy, leaving blanks for you to enter rules, guidelines and consequences that suit your personal preferences and needs. Your child will be following our Classroom AUP and may benefit from having one at home as well. Should you have any questions, concerns or suggestions, please don't hesitate to contact me. My contact information is below.

Thanks so much for your time!
