

Educational Philosophy

Mary Gardner

I as a teacher hope to encourage students to participate in an active learning environment and build their academic confidence. I believe in doing this it will lead to a successful future as they will learn skills and knowledge that they can apply to their future endeavors. I hope to help the students not only grow academically but also mentally, emotionally and socially. In today's society I think there are four essential elements that must be provided in the classroom in order to have a productive learning environment: 1. Hands on activities, 2. Student curiosity driven learning, 3. Access to technology and 4. Making the classroom a safe place.
