Were the screens appealing? <ul style="list-style-type: none"><li>• Color, items on screen, sounds .....</li></ul>		X	I would consider this app a little dull and boring especially in comparison to the apps like ABC Mouse.
Is it easy to navigate?	X		This app was very easy to navigate.
Is it easy to learn?	X		Yes this app was easy to learn, it is very straight forward.

## Evaluating Apps

Does the user need Supervision to use		X	No supervision is needed

This app will read the questions allowed for students in those grades.
Did you like using the App?		X	Honestly, somewhat indifferent about this app. It isn't awful, it is just boring and feels like taking a test on the computer.
<p>What was the cost?</p> <ul style="list-style-type: none"> <li>• Was there a "lite" version             <ul style="list-style-type: none"> <li>○ If so, was it enough</li> </ul> </li> </ul>		X	No cost

<p>How does it compare to other apps that do the same?</p>			<p>As far as free educational apps, it is about the same. They are not quite as visually appealing nor do they have a lot games or videos but it does serve its purpose.</p>
<p>Additional Comments</p>			<p>This is a cool app and it has a lot of potential but I think it could be revamped to encourage the children to get on it more. In a way, this app is a lot like Khan Academy where it seems like it is structured for more mature audiences and not young children/students.</p>
