

Title: Epic!

Version: 4.4 (34) iPhone iOS 13.7

Publisher/Producer: Epic Creations, Inc.

Target Audience: 4+ (app does have options for ages 0-12 so it can customize content for user)

Types of Software: Educational Reading and Literacy-Library

Curriculum(s): This app can fit into the curriculum in many ways. For one, it is important for the learning environment to be text rich, which means to provide a variety of texts to students. Text like digital, books, newspapers, maps etc. are important to a student's reading education. This app would be beneficial to the reading environment of the classroom and for at home use. This app could be used to assign readings, provide a variety of books to the students digitally.

Free Version: There is no free version of this app. This app has one month free then \$9.99 every month after that. It is also important to note that there are Promos for Educators which allow free access for the classrooms.

Description: This app is basically a digital library that is customized by the age of the user. This app gives you access to thousands of books that can appeal to all children from ages 0 to 12. This app also has features to download the books for offline use, "Read to Me" feature that will read the books to the user, learning videos, and audiobooks. This app will also track your reading goals like, reading a minimum of 20 minutes per day. The user is also able to earn badges

Impression: This is really an amazing app that provides new content and books to the user. This app is also impressive because of it is very appealing and organized format. Also, this app is very easy to use and could be easily learned to be use by someone who isn't familiar with technology.

Disagreements: No disagreements with the developer's information or content.
