

Graphing Lesson Plan- Forms and Excel

Grade Level/Audience: 1st Graders

Curriculum Topic: Graphs

Tools: Forms and Excel

Student Formation: Students will be at individual disks.

Synopsis: Students will create a google form with a list of their top 5 favorite ice-cream flavors. They will then send the form to the other students in the class. The form will ask student to pick up their top flavor. Then the student who sent the form will collect their results and create a excel spreadsheet and create a graph based off of their results.
