

## **Explain Everything**

**Version:** 5.4.7S

**Publisher:** Explain Everything sp. z.o.o

**Target Audience:** 4+ (we think it we be used for older students as well)

**Type of Software:** Discovery Learning

**Curriculum(s):** Would work great for any subject. **Environment:** Single use, small group

**Cost:** Free (Only 3 plans included) In-APP purchases: \$12.99 monthly

**Description:** Explain Everything is an app that allows for creative working. It is comparable to a whiteboard on an individual device that is interactive. It allows for ideas to be shown. You can draw on a screen and add voiceovers about what you are drawing.

**Impression:** This app would be great for students to create their own work. The APP itself was hard at first but we feel like students would enjoy using this APP and making their own creations.

**Does the software pass APPS?** Yes
