

**Mini Lesson Idea 4: Recognize and Identify Shapes**

**Grade Level:** 2

**Curriculum:** Math

**Tools:** iPad, Osmo base,

**Technology 1:** Osmo Tangram

**Technology 2:** Geoboard App

**Teaching Method:** Whole Group, Collaboration

**Synopsis:** We will have a mini lesson over different kinds of shapes. I will have an anchor chart with shapes labeled for the students to use as a reference. I will ask the students to draw a shape on their geoboard app when I say the shape out loud. I will ask them to make something, like a house, out of shapes on the app. After we are finished, I will place the students with a partner and allow them to play Osmo Tangram on their iPads.
