Melissa Guill and Audrey Beggs

PBS Kids

Version: 4.3.4

Publisher: PBS Kids

Target Audience: Ages 4+

Types of Software: Tutorial, students are able to choose shows that they have never seen where new information may introduced.

Curriculum: Depends on the show you pick. Possible Environment(s) and why: Mainly home because it is used for enjoyment. It could be used in the classroom to reinforce a lesson or for free time.

Cost: Free

Description: PBS Kids software is a fun app for kids to watch shows that are appropriate. PBS Kids is parent approved. It provides a safe opportunity to watch television shows that could offer new educational knowledge.

Impression: We believe that this app would be more useful at home. Educational lessons can be used within the shows. We do not think that a teacher would use it during their instructional class time.

Does the software pass APPS: Yes
