

**A Great Day!**

**A Good Choice**

**START**

**Warning**

**Time Out**

**Lose a Privilege**

**Go to bed early**

**Every parent can print this Behavior Chart off to use at home. They would make an individual clip for each one of their children to be able to use this method at home. If the parents use this Behavior Chart method at home it is similar to the one at school so this could be a way to keep the student structured. This is a good way to keep up with the children behave at home! Please if you are interested in using this method you can change the titles to whatever would work best for you and your family! I hope this works!**
