Academic Language Support

What is the Academic Language Function(s) (the content and language focus of the learning task represented by the active verbs within the learning objectives/outcomes) and explain how they are utilized in the lesson plan?

What planned Academic Language Supports will you use to assist students in their understanding of key academic language to express and develop their content learning and to provide varying supports for students at different levels of Academic Language development? How do these supports address all three Academic Language Demands (vocabulary, syntax, and discourse)?

The language that is presented in this lesson with will be used every day in the classroom. When doing calendar time, the students are asked everyday what season it is, and they have to point to the correct season.

Materials

Materials needed by teacher for this lesson. (such as books, writing materials, computers, models, colored paper, etc.)	The Seasons by William Rice Example of Seasons worksheet Computer with access to internet Video from You Tube https://youtu.be/8ZjpI6fgYSY
Materials needed by students for this lesson. (computers, journals, textbook, etc.)	Crayons

Lesson Timeline with Instructional Strategies & Learning Tasks

Amount of Time	Teaching & Learning Activities (This should be a BULLETED LIST)	Describe what YOU (teacher) will be doing and/or what STUDENTS will be doing during this part of the lesson. (This should be VERY DETAILED)
5 minutes	 Introduction: Invite predictions about the books Ask students if they know the 4 seasons in order 	The teacher will show the students the book about seasons and ask for predictions, then the teacher will ask the students if they know the four seasons in order.
25 minutes	Instruction: • During the reading Ask some questions as the teacher is reading the book to • After the reading Discuss the 4 seasons Discuss the student's favorite season • Show video https://youtu.be/8ZjpI6fgYSY	The teacher will start out by showing the students the book and telling the students the title and the author. As the teacher is reading the books, she will be making sure her students are listening to the book. Every few pages she will call on random students and ask them a question about the page she just read or previous pages she has read to make sure all the students are paying attention. After the book is over the class will discuss the 4 different seasons and how they are different and alike. Then the teacher will share her favorite season and why it is her favorite season. She will then call on a few students and ask them what their favorite season is and why they picked that season. Before the students go back to their seats, they will watch a You Tube video about the four different seasons.

Amount of Time

Research/Theory

Explain connections to theories and/or

research (as well as experts in the field or

national organization positions) that support the approach you chose and justify your choices using **principles of the connected theories and/or research.** to be able to process the information well enough that they can do a worksheet with little to no help.

Lesson Reflection/Evaluation

What went well?	TO BE FILLED IN AFTER TEACHING
What changes should be made?	
How will I use assessment data for next	
steps?	

Include supporting material such as slides, pictures, copy of textbook, and handouts for any activity's students will be using as part of your lesson.
