

# We are going to Kahoot to addition

Subject: Mathematics

Grade: Kindergarten

Tools: Kahoot and QR Code Readers

Synopsis: All the students will be paired with a partner. The objective of the game is for the students to get more comfortable with adding small numbers, the tool the students will be using the Kahoot. Each group will have an iPad. After each group receives an iPad there will be a QR code that will be walked around for each group to scan. The link will take them to the Kahoot program. After each group is on the Kahoot program the teacher will then start the game. This is a great way for teamwork and a way for the students to work on addition.
