

Making Music

Subject: English

Grade: Kindergarten

Tools: Specdram and Power Point

Synopsis: The students will work by themselves on this activity.

The students will have a computer in front of them. This computer will be on Power Point. The power point will have different slides with different letters that are colored different colors. The students will also have the Specdram color pad in front of them. The students are to hit the color that the letter is.

When doing this activity, the students will be playing music. This activity will help the students learn to pay attention to detail, learn the alphabet, and learn the colors.
