

Dear Parents,

Earlier this week, I sent home an Acceptable Use Policy (AUP) for you and your child to read over. This paper went over the rules for the technology in the classroom as well as basic classroom rules.

AUPs are an important way to get the student prepared for the year ahead. Throughout my years of teaching, I have found that when parents make a separate AUP with their child, the child seems to be more aware of the rules. Because of this, I encourage you to create a template with your child to keep them on track. I have attached a template that you can use if you choose.

Thank you for your participation!

Molly James
Third Grade Teacher
