

Explain Everything

Version 5.3.7

Explain Everything

Target

Audience: There is not a recommendation by the publisher on the age group for this app. We think that someone ages 10 and up could use this app.

Curriculum: Teachers can use this app for a whiteboard experience to teach lessons.

Cost: The app is free to download, but after 14 days, you can pay \$12.99 a month or \$107.99 a year to use the app.

Description: Explain Everything is an innovative white board in an app form that allows students and teachers access to lessons, videos, and classwork. You can make virtual collaborations and use real time voice chat.

First Impressions: We do not particularly like this app as much as other apps. We also do not think that this app will be easy for a child to access and learn how to use. This is more for older students to use. There were no sounds or appealing colors. We think a teacher could use this app, but it is pointless to a student.

Pass: no
