

Wish list

1. In my classroom, the theme will be “Wild About Third Grade.” Students desks will be grouped in sets of four to encourage students to make friends in the classroom. Students will set towards the edges of the classroom so therefore there will be a clear walkway to the smartboard. As you walk in the classroom, there is a whiteboard and a smartboard mounted on the wall to the left. Up above the smartboard is an alphabet poster. The whiteboard contains due dates, daily objectives, and the prize word. With good behavior, students will gain a letter for each day, once students gain all the letters to the word, they get what the word spell. For example, if the word is popcorn, the students will be rewarded with popcorn once the word is gained. Next to the smartboard is my desk for my computer that runs vertical. This allows me to see my students and the smartboard at the same time. Behind my desk on the wall is a calendar that includes birthdays, holidays, and school events. Beside the calendar is the lunch menu for students to look at if they forgot to look at the class website. At the back of the classroom in the right-hand corner is a reading corner. There is a palm tree, bean bags, giant stuffed animals, and bouncy balls for students to sit on while reading a book. In the left-hand corner is my desk that I utilize to grade papers and watch students as they are taking test or working on classwork. On the wall beside my desk is are cubbies and hooks for students to stow away their backpacks, lunches, books, and supplies. By the door, there is hand sanitizer, disposable face masks, and a poster on how to properly wash your hands. Throughout the classroom, there are other poster that helps with classroom rules, and other rules in the different subjects.
2. Wish list
 - a. Pencils (50)

- b. Paper (10 packs)
 - c. Disposable facemask (100 pack)
 - d. Stapler
 - e. Post-its
