

Why should you, the parent, have an Acceptable Use Policy in your home?

At school, students are used to having rules and guidelines for certain things and incorporating one of these in your home can make going to school a little bit more bearable and possibly change their behavior for the better. These simple rules can change how they act and behave which can ultimately help you in your home.

Students using and abiding by these rules can also help them learn discipline and self-control quicker and they will be able to do it more efficiently.

If you choose to incorporate one of these in your home, there is a template that I can provide you with! Let me know if you are interested in it!
