

Michaela Moore

Glogs and Blogs

For this lesson it will be for my second graders and they will be working in groups. They will get the choose to make a glog or blog using one of the two websites listed below. They will make this for the president of their choice. They will be making a presentation type project to show to the rest of their classmates. This will give them the opportunity to look up videos, other blogs, and pictures of this president and learn all about them this way. Each group will make a choice on which they want to do.

Here are the websites:
