

## Markus Pillow

My 5<sup>th</sup> grade classroom is already great but this is my Wishlist to make it even better. My class is filled with 12 wonderful boys and 14 wonderful girls. They come from so many diverse backgrounds and this list will make their classroom experience even better. 10 of the 26 students come from low-income families and about 5 of the 26 come from upper class families. The great thing about my class is that they all get along and collaborate with each other as if they were all the same

### Classroom Wishlist
