1. Screencast-O-Matic
   a. https://screencast-o-matic.com/
   b. This is a video creation tool. It is easy to use for work, education and personal. You can record yourself, record your screen, take screenshots, and edit your videos. You are also able to host and share your content
   c. I would use this in a classroom for a variety of different ways. First I think it could be good use to deliver presentations on. Some students find it easier to pre-record a presentation and this is an easy way to do it. I could also use it to create extra help videos on lessons in class

2. Coggle
   a. https://coggle.it/
   b. This is a mind mapping tool for students. This lets them easily create mind maps and sequence charts. It has three levels of pricing but the free level has a lot in it. This app easily lets students sort their thoughts.
   c. I think my students could easily use this app. I think it would be perfect for them to use brainstorming and getting their thoughts in line. It is easy use and I think they would enjoy it

3. Sumopaint
   a. https://www.sumopaint.com/home/
   b. This is a paint tool that is easy to use. It is a pretty in-depth tool but it has a simple layout. This is advanced paint tool but students could easily use it. You can create your own things in it or upload something to draw on it
   c. I would use this as a project I think for my students. I think I could have them paint me examples of things like the rain cycle and see how creative they could be. I think my students would enjoy something like this.

   d.

4. Straw Poll
    a. Straw Poll
    b. Straw Poll is a quick polling tool. This would be used for quick feedback from students and it is super easy for the teacher to create and look at the results.
    c. I would use this a just a quick mid-lesson assessment. It would allow me to easily see if the students are understanding what I am teaching and it will let me know if I need to move on or go back over something
    d. http://www.strawpoll.me/42941547

5. Canva
    a. https://www.canva.com/
    b. Canva is a graphic design program that can be used to create cool presentation and graphics. Canva is extremely popular and something I am already familiar with due to its easy use. Plus it is full of Great templates
    c. I would use Canva in my classroom for students to create quick informative presentations. Examples would be informative posters, flyers, or informational one-pagers which is a really fun assignment.
