

# Ms. Clark's Acceptable Use Policy

---

Hello Parents! I have created this Acceptable use policy for my classroom and would love for you to implement one at home as well. I have found that having set rules or boundaries starting off at a young age helps the child focus more in class and even improves test scores.

If you would like to take part in this, I have created a template to get you started or for a reference. Feel free to use it or even create your own if you would like! If you have any questions about the template or questions in general, feel free to email me. Thank you!
