

How to- Storyboard- Weather- Olivia Clark

*You will first start by gathering your materials (paper plate, coloring tools, hot glue gun, and bells).

*Next, take the paper plate, and fold it in half

*Then, hot glue the edges all together, all the way to the end

*Color your folder plate however you would like (mine is a rainbow since it is a weather lesson).

*Once finished coloring, hot glue the bells on the end of the plate.

*Once dry, you have made a homemade instrument to use in your classroom, or in a lesson.
