

## Acceptable Use Policy for Miss Peyton's 1<sup>st</sup> grade classroom.

Hello class and parents! I cannot wait to start this adventure with you all! I hope to see growth and improvement in each of my students by the end of this journey! Before classes begin I would like to lay out the foundation our classroom will be built on!

Please read and sign each page of my rules and procedures and return them by **Monday January 28<sup>th</sup>!**

### In this classroom we will

1. Pay attention to the instructions our teacher gives the first time!
2. Be kind to each other and Miss Peyton!
3. Share with our friends!
4. Try our best in everything we do!
5. Keep our hands to ourselves!

### While using technology in class we will

1. I will not damage the technology in my classroom.
2. I will not share my passwords with anyone outside of my teacher and parents.
3. I will not visit websites or games my teacher has not preapproved.
4. If I come to a problem on the page, I will ask my teacher for help.
5. I will not throw my headphones when I get upset.

While using the Internet in class we will

1. Not share personal information.
2. Not upload photos of ourselves online.
3. Not bully others.
4. Not visit online chatrooms.
5. Not take credit for others work without giving credit.

In my classroom we use the red-light, yellow-light, green-light system for consequences. If a child is caught breaking rules, they will be asked to move their card from green to yellow and will lose 3 minutes of recess time. If a child has to move their card again, they will lose all recess time for that day.

Plagiarism will not be tolerated in this classroom! You do not want someone to take your hard work and use it as their own, so we will not do that to someone else! Make sure you give credit where it is due!

STUDENTS: I have read or been read the rules and I will follow them this year in the classroom.

PARENTS: I have read these rules to my student and I understand acceptable actions in the classroom.
