

## Mini Lesson: What Kind of Trail Do You Leave?

Grade Level: 7

Curriculum Topic: Human Impact

Tools: Technology Tail (book) and Adobe Premiere

Lesson Synopsis: As a precursor to studying human impact on the environment, I will first relate to the students with their own lives. As a whole class, we will read the Technology Tail to understand how actions taken online will remain with them. They will then individually video document their daily technology use and make a short presentation on it.
