Clips Outline

How-To: Make a Video using iMovie

- Why: Students will need to make video projects in my class
    - Disclaimer: it is assumed that the school is an Apple school. If the school is Google or Windows based, a different tool will need to be used, but process should be similar.

- Step 1: record video
    - Always record in landscape if on a phone/tablet
- Step 2: upload media
- Step 3: edit video
- Step 4: add graphics/sounds/music/titles
- Step 5: Publish
