

Evaluating Apps

- **Title:** Explain Everything Whiteboard
- **Version:** Only one
- **Producer:** Vimeo
- **Target Audience:** Everyone
- **Types of Software:** Tools (you use this app like smartboard)
- **Curriculum:** Any
- **Cost:** \$6.99/month or \$69.99/year

- **Description:**

The app starts out blank and you add in whatever you want, a drawing, pictures, texts, links, anything. You do what you please with this app, and it can go a long way. This is awesome when you want to customize something. You can take a boring research project and turn it into an eye catching presentation. Compared to PowerPoint, this is a lot easier to use as far as editing and being able to draw on it instead of having to type.

- **Impressions:**

We were impressed by this application by what all we could do with it. You can join student together on one board and they can work as a group to create something, or just share information. You make an extravagant presentation or a basic paper. It is easy to learn how to use, and everything you need is nicely labeled on the navigation bar on the left side of the screen. What you can do with this app is endless.
