Problem Solving Mini Lesson

1st Grade

Technology Used: Explain Everything and WordPress

1. I will start reading a book to the class that features a problem and, in the end, and solution
2. After I read the problem and before the solution, I will have the students divide up into groups to come up with an explain everything web of ultimate outcomes based on the decisions that have to be made.
3. After each group has come up with a web, I will have each student create an entry on WordPress, stating what they would do in the situation in the book
4. I will then finish the book and the students can see what the character choses to do
