

Spelling Mini Lesson

1st grade

Technology Used: Osmo Words, Freefall Spelling, and Word Wizard for Kids

This lesson is going to be a mix of a spelling lesson and a compare/contrast of different spelling apps

1. I will show the class how to use each app, their spelling words will be preloaded for us to practice
2. I will instruct the students to be making notes about what they like and don't like about each app and how they are similar and different
3. The students will then be able to go around the room in groups taking turns using each app
4. After each student gets a chance to use each tool, they will go back to their seats and tell me all about the apps. Which one was their favorite? Why? How were the apps different? How were the apps the same?

P.S. I checked each app to make sure that I could use my own spelling list
