

Technology Safety Mini Lesson

1st Grade

Technology Used: Wixie and Voice Record Pro for iPad

Step by step instructions:

1. As a class, students and teacher will go over the key concepts of internet safety
2. The students will make rules for being safe online (ex: don't share address online)
3. The students will divide up into groups and each group will have a rule to make a page for in Wixie
4. The students will record their rule
5. When each group is finished, we will combine them and make an internet safety book for the class and one to take home to show their parents.
