Description of Software: Epic is a virtual library that allows students from ages 4 and up to 8 read online, listen to audiobooks, watch videos about books, even take quizzes on books read, as well as Spanish and Chinese books. Epic has over 35,000 books and learning videos for students, both updated weekly to keep things fresh. Once a student creates an account, Epic will follow along with their progress, creating a unique profile for that individual student. This profile will give book suggestions based on their interests and reading abilities. There is even a reading log to monitor how often a student is reading.

Impression of Software: Overall, Epic is an impressive app that is constantly expanding. It fits the needs of many ages and works with the student to help them excel. Offering thousands of books, videos, and audiobooks in Hindi, Mandrian, Spanish, and English allow for a diverse audience, as well as encouraging knowing multiple languages in young children.

Does it pass? Yes, this application passes the evaluation.
