# Total Recall

---

**Version:** 5.0

**Publisher:** Michel Neuhaus

**Target Audience:** 4+

**Curriculum:** This application would be great for any subject area. It starts as a blank document and allows the user to create whatever they want.

**Cost:** The app is free to download and has an in-app purchase of \$1.99 for Mind Map Unlock.

**Software description:** When you first open the app, there is a mind map that gives the user instructions on how the app works. This software allows you to create various webs and structures that organizes various subjects and concepts. There are not many options when it comes to adding various fonts or pictures, but it is still a helpful app to create maps.

**Impression of software:** This app is a simple version of Inspiration. This software is very simplistic and easy to use, it would not be confusing for younger students to use and navigate.

**Does it pass?** Yes, this app passes the evaluation.
