

# Building Numbers and BrainPOP

**Subject:** Mathematics

**Grade:** First

**Tools:** Number Pieces and BrianPOP

**Synopsis:** Students will watch BrainPOP Jr video called Place Value with Annie and Moby. After the video, students will have a small discussion with their partners about what they learned from the video. After discussing with partners, students will work individually and grab an iPad and open Number Pieces App. The students will be given a number and are to show the number using ones and tens.
