

Shape Families

3rd Grade Math

Standards: AR.Math.Content.2.G.A.1, AR.Math.Content.3.G.A.1

Technology: Osmo Tangram Game, Powerpoint

In this lesson students will discuss the characteristics of shapes. They will play the Osmo Tangram game to work with a variety of shapes and to see that the characteristics of a shape are not dependent on how a shape is positioned. Students will then participate in a powerpoint jeopardy game that will assess their knowledge of shapes, their characteristics, and the relationships that shapes have with each other.
