

Simple Machines

3rd Grade Science

Standards: 3-ETS1-1, 3-ETS1-2

Technology: padlet and powerpoint

In this lesson students will view the iMovie about simple machines and some real life examples. Then we will make our way through a powerpoint that contains word problems. Students will be required to find a solution for each word problem using a simple machine that we discussed. They will be put into groups so that they can converse about how to solve the problem. Then they will write the name of the simple machine that they chose and draw a picture of how they would use it.
