

# Acceptable Use Policy:

## *A Great Idea to Have at Home*

---

### **Hello!**

I am excited to have your student in class this year. In this letter, I would like to take a moment to explain the importance of implementing an Acceptable Use Policy (AUP) in your home.

An **AUP** is an agreement between two parties on the acceptable use of technology in a certain setting (in this case, your home). Essentially, it ensures that your child knows the rules and expectations of technological use in the house, and knows what the consequences will be if the rules are broken. I *highly* recommend having an AUP with your child, as it can clear up any discrepancies quite effectively, and create an effective system of communication between you and your child!

If you choose to make this agreement with your child, I have a premade template that you are welcome to use!
