Hi parents/guardians! I have attached a template for an Acceptable Use Policy (AUP) for you to use. I would **highly** recommend taking advantage of this template and implementing it into your child's homework routine. An AUP lays out specific rules and consequences that will allow your child to have a structure when working at home. As you know, I sent home the AUP I use for my classroom, and I think it's important we are all on the same page when it comes to expectations for the students. Please individualize this for your specific child's needs, and as always, please contact me at [sheila.sutfin@smail.astate.edu](mailto:sheila.sutfin@smail.astate.edu) with any questions/concerns.
