

# Ms. Sutfin's Wishlist

Welcome to my classroom wish list! I have included all the amazing tools I would love to see in my Kindergarten class. My 25 students are energetic and eager to learn, and I believe these tools will help them succeed. We are constantly moving, listening to music, having discussions, and pushing ourselves to try new things. I have 13 boys and 12 girls in my class that love exploring technology!

1. One smartboard
2. PC desktop
