<u>Title AR Coding | Kodabl</u>

<u>Evaluators Sarah Young and Jordan Wright</u>

Questions	Yes	No	Comments/ Notes
Have you played enough to know every aspect? • Did you try things that were wrong and/or unexpected	Yes		To us this app was very confusing, but we had also never had a hand at coding or creating games. Even after messing around with the app, we were confused.
Did the software crash?		no	
Was the content appropriate? Did it meet the user's needs?	Yes		
Were the screens appealing? • Color, items on screen, sounds ……	Yes		The screen itself and layout was very eye-catching
Is it easy to navigate?		no	
Is it easy to learn?		no	it was not easy to learn, but we are very much so not tech savvy.
Does the user need Supervision to use		no	
If the App required a response, was it appropriate? (right or wrong)		no	

Were there bells and whistles? • If so, do they enhance instead of detract? • If not, should there be?	Yes		The bells and whistles enhance the app and make it more useful (clicking on thing is to get to new things)
Did you like using the App?		no	
What was the cost? • Was there a "lite" version ○ If so, was it enough			Free unless you subscribe
Were there in-app purchases? • If so, what were the additional costs?	Yes		Full access: $2.99 Subscription $1.99
How does it compare to other apps that do the same?			This app involves printing out papers and being able to show them to the camera to continue.
Additional Comments			Seller: Valeriy Danyuk Compatibility: works on iPad and iPhone
