

Kahoot and Addition

Subject: Mathematics

Grade: Third

Tools: Kahoot (online tools) and QR Code

Synopsis: students are going to play a math review game over addition and subtraction. Students will have their device out to submit the correct answer and they will also have access to a whiteboard in case they need to work out any of the problems. Students will get to Kahoot through a QR code that they will scan onto their iPads. This assignment will be done individually.
