

Holidays and Excel

Grade Level: Third

Subject: Social Studies (cultures)/ Graphs

Tools: google forms and excel

Synopsis: The objective of this mini lesson will be to practice excel charts and graphs. The teacher will send out a google form that ask students what their favorite holiday is. the options will be... thanksgiving, Christmas, easter, valentines, or other. All of the students will get on their technology device and complete the google forms. After that all of the students will group up with their table group and complete an excel workbook of the results and add two charts to go along with the results.
