

Weather and Seasons

Subject: Science

Grade: Third

Tools: Padlet and Google Docs

Synopsis: Students are going to choose one season and write a one page paper on the season you chose, characteristics of that season, three fun facts and why you chose it. Students will then create a padlet to share with the class that has a minimum of seven links. These links can be pictures, videos, games, websites, or short fun facts. Make sure the student use a variety of different links as well as attaching a link to their google docs one page paper.
