

Parents/Guardians,

I sent home a copy of the Acceptable Use Policy for my classroom. This document holds my expectations for the students in my classroom along with the consequences that will be enforced should any rules be broken. It is imperative that everyone understands and follows the rules/guidelines. So, parents/guardians I ask for your help in making sure that our students do understand. It is very important that we work together as a team.

The Acceptable Use Policy can also be used at home. It would make great practice for the students and it would be a great benefit for them to have consistency at both school and at home. I have attached a template that will help you get a start. Thank you, parents/guardians, for your help and understanding. If you should have any questions or concerns, please feel free to call or message me.

Sincerely,  
Mrs. Tiffany
