

Addition & Subtraction

Grade: Kindergarten

Standard: AR.Math.Content.K.OA.A.1

Technology: Osmo Numbers, PowerPoint

In this lesson, the students will play the Math Jeopardy game that I made through PowerPoint first. Once the students have went through the addition and subtraction problems in the PowerPoint game, they will get a chance to use the Osmo Numbers tool and play the Fish/Bubble game. This game helps to encourage the students fluency in addition and subtraction.
